PROFESSIONAL SUMMARY

Data Analyst with hands-on experience in business reporting, data validation, dashboard analytics, and reporting automation. Skilled in analyzing operational data, developing KPI-driven BI solutions, and translating complex datasets into actionable business insights using SQL, Power BI, Excel, and Python.

SKILLS

Programming: SQL, Python

Analytics & BI: Power BI, DAX, Power Query, Tableau, Advanced Excel, KPI Development, Dashboard Development

Data: MySQL, Data Modelling, Data Validation, ETL, EDA, Time Intelligence

Tools & Concepts: GitHub, VS Code, Data Warehousing, Basic Statistics, OLTP & OLAP

Soft Skills: Communication, Problem Solving, Stakeholder Management

EXPERIENCE

Darwix AI

Apr 2026 – Present

Junior Data Analyst Intern

On-site

- Collaborated on a Voice Agent Performance Dashboard to analyze call attempts, connections, reachability, retry patterns, conversation behaviour, outcomes, and operational KPIs.
- Cleaned, mapped, reconciled, and validated 12,000+ lead and AI call-log records across reporting workflows to ensure consistency and reporting accuracy.
- Investigated reporting abnormalities by tracing metrics to source data and coordinated with AI engineers to validate fixes and resolve data-quality issues.
- Prepared daily and monthly operational reports and automated recurring reporting workflows using Google Apps Script to support business monitoring and decision-making.

ToffeeTeens - Internship

Jul 2025 – Sep 2025

Data Analyst Intern

Remote

- Analyzed 5,000+ records across bookings and user datasets to improve reporting accuracy and data reliability.
- Tracked KPIs such as active users, bookings, and conversion rates to support data-driven product decisions.

PROJECTS

MaDlq Labs – Omni-Channel Analytics Dashboard

2026

Power BI | Power Query | DAX | Data Modelling

Personal Project

- Designed a 4-page interactive Power BI dashboard using synthetic datasets to analyze executive, voice, sales AI, and AI performance metrics across fictional VoxIQ and SalesIQ AI products.
- Built a structured data model with shared Date, Product, and Region dimensions and reusable DAX measures for KPIs, Month-over-Month comparisons, time intelligence, and filter-aware analysis.
- Used Power Query for data cleaning and transformation, with dynamic Key Insights, custom metric comparisons, slicers, and cross-filtering for business-focused analysis.

Customer Churn & Retention Analysis

2025

SQL | Power BI | MS Excel

- Analyzed 7,000+ customer records to identify churn and retention patterns across customer, contract, and service segments.
- Used SQL for customer segmentation and service-usage analysis, and developed a Power BI dashboard to track churn rates and retention metrics.

EDUCATION

National Institute of Technology Andhra Pradesh

Nov 2022 – Apr 2026

B.Tech in Electronics and Communication Engineering

CGPA: 7.49

Kendriya Vidyalaya No.1, S.V.N, Visakhapatnam

Aug 2022

Class XII - Science (CBSE)

Percentage: 77.3%

Kendriya Vidyalaya No.1, S.V.N, Visakhapatnam

Aug 2020

Class X (CBSE)

Percentage: 75.6%

CERTIFICATIONS

micro1 – Certified Data Analytics Intern, Mar 2026 [Verify]

NPTEL – Database Management Systems [Verify]
